Ajay Glass was contracted to design, fabricate and erect the exterior wall system for this 21 story building in Cleveland. Ajay provided in excess of 200,000 sf of stone cladding on steel truss and another 100,000 sf of unitized preglazed curtainwall. The highlight of the building is the main entry "rotunda" which features custom cut stone arranged in a wedding cake fashion along with cubic stone custom fabricated around the main entrance door. The result is a stunning entry to a monumental Federal building.
