The Oneida Indian Nation recently completed a major expansion of their casino resort facility in Upstate New York. As part of this expansion they constructed a new 20 story hotel tower and a 5,000 seat arena/convention center. Ajay Glass was contracted to furnish and install approximately 100,000 sf of custom unitized and stick curtainwall. The system features a series of alternating depth covers throughout the project and also incorporates a custom stick-built curtainwall system at the Event Center pictured above to the right that is built on a radius and leaning out.
